

SHARED IMPACT PROGRAMME

Investing together in good
governance

NOT FOR PROFIT PROGRAMME

Not-for-profit boards face unique challenges. Directors are often unpaid, the sector is diverse and the line between board and management can be complex.

Stakeholders expect not-for-profit boards to:

- Instil strong governance practices
- Monitor performance and ensure accountability
- Meet growing regulatory requirements
- Stay true to organisational purpose

Strong governance enables not-for-profit boards to deliver on their mission more effectively, creating greater impact for the communities they serve.

The Shared Impact programme

Through our not-for-profit programme, boards gain access to the same data-driven governance tools used by listed companies, making it possible for NFP boards to:

- Benchmark against global best practice
- Enhance decision-making and board effectiveness
- Identify strengths and gaps with clarity
- Improve strategic alignment with organisational purpose

Our commitment to you

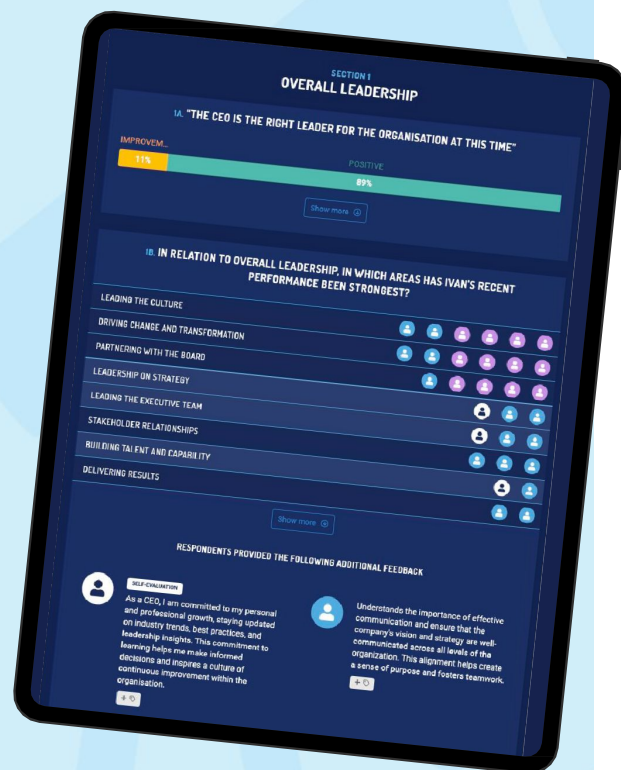

When you deliver a pro-bono engagement to a NFP board, we'll match it by providing access to a single process at no cost. This means you can integrate the following directly into your NFP engagements:

Together, we invest in strengthening governance capability where it is needed most.
